- 2. <u>Applicability</u>. This regulation applies to all HQUSACE/OCE elements and those separate field operating activities (FOA) for which the USACE Operating Civilian Personnel Office (OCPO), provides personnel management services, except US Army Engineer Activity, Capital Area, and DAEN-PEO-H.

- 5. <u>Background</u>. DD Form 1556 (8 or 10 part form) will be used to authorize and record training of civilian employees in Government facilities (intraagency and inter-agency), training in non-Government facilities and attendance at meetings authorized under provisions of AR 690-400; DD Form 1556 is a multi-purpose form designed to reduce the need for a variety of forms associated with training. DD Form 1556 will serve as training request authorization, obligated service agreement, certification for reimbursement of cost-sharing expenses, certification of authorization certification for reimbursement of cost-shared expenses, certification of authorized expenditures, a record of training, and an evaluation instrument.
- 6. <u>Responsibilities</u>. Accuracy of employee data, i.e, training source, location, course information including course title and number, training period, allocation status, accounting classification for direct and indirect

costs and document number are the responsibility of the originating office. Remaining information is the responsibility of the Operating Civilian Personnel Office.

7. Submission.

- a. DD Form 1556 must be received by the servicing Training Branch at least 30 days in advance of the course start date or registration date (whichever occurs first), exceptions are Military Service Schools, OPM Executive Seminar Centers, Federal Executive Institute and Brookings Institution, where the DD Form 1556 must be received by the servicing Training Branch at least 120 days before the course start date. Exceptions to the 30 and 120 day advance receipt policy are not routine and will be considered on a case-by-case basis. Other exceptions are special announcements such as managerial development and long-term training announcements that at the time of announcement will establish specific dates for receipt.
- b. The Training and Development Branch will submit DD Form 1556 to the appropriate Finance Accounting Office prior to training coordinators contacting training vendors. The Finance and Accounting Officer will certify availability of funds and return same to Training and Development Branch where it will be returned to the originating directorate or office for forwarding to vendor. Training coordinators will submit signed receiving reports to the Finance and Accounting Office for payment within 5 days after course completion (in support of the Prompt Payment Act).
- 8. <u>Special Instructions</u>. The Office Chief, Director or Assistant/Deputy Director, or his designee, will authorize training. The authorizing official will ensure that office/directorate training costs and quotas (if applicable) have not been exceeded and administratively excuses the employee from his/her work site; also is responsible for receipt of course evaluation and grade report or certificate of training in DAEN-PEO-T or DAEN-PEO-K not later than ten (10) work days after training is completed, otherwise, attendance at training will not be entered into attendee's official personnel record and may result in initiation of steps to recoup funds expended from trainee.
- a. Each directorate or office must submit a Signature Card (DD Form 577) to the Civilian Personnel Office, Training and Development Branch, containing the signature(s) of the person(s) who will sign as authorizing official(s) in block 29 of DD Form 1556. DD Form 577 must be resubmitted/updated at the occurrence of a change in authorizing personnel.
 - b. Justification for Training, ENG Form 0-4853 is necessary when:
 - (1) Requesting non-Government training.

- (2) The reason for government training is not apparent to the Employee Development Specialist.
 - (3) Employee does not meet stated course prerequisites.
- (4) Training is unprogramed and not included in the employee's approved Individual Development Plan.
- c. Requests for non-Government training must be accompanied by course information giving details, i.e. date, place, cost and course description, objectives and prerequisites, if any.
- d. All indirect costs (travel, per diem, etc.) must be entered on the DD Form 1556.
- e. Travel orders obligating executive and management funds (2530 account) must be routed through the appropriate Training Branch (DAEN-PEO-K or DAEN-PEO-T), otherwise, travel must be charged to the office/directorate travel account.

9. Cancellations and Substitutions.

- a. If the primary nominee for training cannot attend a scheduled class, a substitute or alternate should be identified to the Training Branch by submitting DD Form 1556. If no substitute or alternate can be identified, the class should be cancelled by written document (DF) to the Training Branch, in time to prevent payment for training not received by an employee. Unless non-attendance is beyond the control of the nominee, nominee may be responsible for reimbursing the Government for costs incurred. Training coordinators should contact vendors within prescribed time frame for cancellation.
- b. Formal approval must be received from the servicing Training and Development Branch prior to substitutions of courses, or substitutions for attendees at sourses conducted by a vendor.
- c. Written cancellation notification of approved training must be provided to the Training and Development Branch with the following information: employee name, social security number, course title, dates, standard document number, vendor point of contact, date of cancellation, and reason for the cancellation. In no case will cancellation notifications be forwarded directly to the Finance and Accounting Office

<u>Instructions for Using DD Form 1556, Request, Authorization, Agreement, Certification of Training and Reimbursement</u>

A. GENERAL

- 1. DD Form 1556 will be used to authorize and record training of civilian employees in Government facilities (intra-agency and interagency), training in non-Government facilities, attendance at meetings, and for Defense Management Education Training (DMET) authorized under the provisions of CPR 410, Training. Procedures for DMET courses are contained in the DMET Catalog issued annually. DD Form 1556 is a multipurpose form designed to reduce the need for a variety of forms associated with various training incidents. DD Form 1556 may serve as any one or all of the following: training request, authorization, obligated service agreement, certification for reimbursable or cost-shared expenses, certification of authorized expenditures, a record of training, and an evaluation instrument.
- 2. DD Form 1556 will be available in three versions: (a) single page cut-sheet; (b) ten-page manual "packet;" (c) ten-page continuous version with perforations for use with ADP equipment.

B. <u>INSTRUCTIONS FOR USE</u>

1. Request and Approval of Training

- a. Approval of training at Government or non-Government facilities must be in accordance with established policy and criteria for such training to include any special criteria for the selection of non-Government facilities. DD Form 1556 will be used to request and approve or disapprove all training.
- b. All applicable parts of DD Form 1556 must be completed in accordance with instructions on the last page of the form and supplemental instructions contained herein. The management official of the initiating unit, with assistance from a member of the training and development staff, shall originate the form wall in advance of the start date of the request training by completing sections A, B, and C of the form. Section D will be used for approval by the immediate supervisor and for certification by the chief of the training and development function, or an authorized EDS that the nominee meets required prerequisites and that the proper training is in accordance with regulatory requirements including the nondiscrimination provision on use of non-Government facilities. Section E requires certification of approval or disapproval by the authorized approving official. Section F provides certification of training completion and verification of the training costs. The applicable remaining parts of the form must be completed and distribution made in accordance with instructions on the form and paragraph c below.

- c. Approval of training is required prior to enrolling in, or making any commitment for the training. A copy of the approval form shall be retained according to file retention schedule for review and inspection purposes. In addition, a copy of the approval form may be placed in the employee's official personnel file as a record of training completion. The approved document will also serve as a source document for required training reports.
- d. When more than one non-Government facility can provide training that meets a predetermined need, the capability, suitability, geographic accessibility, methods, cost requirements, qualitative factors related to curriculum design specifications, and performance or behavior objectives must be evaluated. Evaluative information, cost data, and the recommendation for selection must be documented and made a part of the employee training and development office record. The employee development specialist, with outside help as required, will make the determination and documentation as required.
- e. Each individual request for training in a non-Government facility must be prepared on a DD Form 1556 with an appended narrative statement fully justifying the training in accordance with CPR 410.5.
- 2. <u>Special Training by Contract</u>. When a training course or program is developed by a non-Government source to meet a specific requirement, it is the function of an authorized Contracting Officer to contract for the training on behalf of and as required by the responsible Employee Development Specialist. In such cases, the Commander must follow procedures set forth in the Defense Acquisition Regulation (DAR), including the use of approved forms. This precludes using DD Form 1556 as a contracting document for training under these conditions; however, DD Form 1556 must be completed for requesting and approving training for each individual to be trained (the DD Form 1556 serves as a backup document to the contracting documents).
- 3. Normal (Noncontractual) Training Authority. Training may be authorized and certification for reimbursement accomplished by an appropriate training official using DD Form 1556 when the training is regularly scheduled, open to the general public (for non-Government training) and the price of tuition, books, and fees does not exceed that charged all accepted students. Even though a dollar limitation is not established under these reimbursement conditions, the individual responsible for the training and development function should consult with the appropriate contracting officer and follow regular contract procedures when the price exceeds \$10,000. Reimbursement of training which costs less than \$10,000 does not have to be submitted to a Contracting Officer. The use of reimbursement procedures is optional with each employing activity.

- 4. Educational Service Agreement. As prescribed in section 22, part 9, Defense Acquisition Regulation (DAR), an Educational Service Agreement may be entered into with established educational institutions at the request of the responsible employee development specialist when approved by a responsible management official (see CPR 410.3-6g). Under these contractual agreements, the DD Form 1556 will be used as the authorizing document for the contracting officer to initiate such agreements.
- 5. Payment for Training at Government Facilities. Training is authorized and certified for payment on the DD Form 1556. However, payment must be made on funding documents as described below or on other appropriate documents.
- a. From one DOD Component to another DOD Component: Use DD Form 1556 as the certifying document and DD Form 448, Military Inter-Department Procurement Request (MIPR) as the reimbursement or funding document.
- b. From a DOD Component to a Civilian Agency: Use DD Form 1556 as the certifying document and SF 1080, Vouchers for Transfers Between Appropriations and/or Funds, as the reimbursement or funding document. NOTE: Department of the Army activities using the USCSC central office training center courses must show the full name and address of the servicing civilian personnel office as the billing office in item 28b of DD Form 1556. It is the responsibility of the CPO to certify the SF-1080 for payment. The properly completed DD Form 1556 and SF-1080 will be forwarded to the appropriate finance and accounting office for payment. All communications on nominations for CSC central office sponsored courses and payment problems will be handled by the servicing CPO.
- 6. Payment for Training at Non-Government Facilities. When training is properly authorized by an appropriate training or other management official and does not involve a contracting function outlined in paragraph 2, above, DD Form 1556 may be used for certification for payment of approved costs incurred in training at non-Government facilities. Such certification does not involve a contracting function.
- 7. Attendance at Meetings. In accordance with policy established in CPR 410.8, DD Form 1556 shall be used for requesting, authorizing, approving and certifying payment for attendance at meetings in accordance with instructions on the form and instructions contained herein.
