FILTERS AND CANISTERS COLLECTIVE PROTECTION
HOT WEATHER/DESERT OPERATION

This abbreviated checklist is not to be used as a replacement for the -10 series Tech Manuals or any other PMCS guide.

To ensure the reliability of your equipment and provide the best protection possible, follow these general guidelines:

1. Keep all items in unopened, individual protective packaging until ready to use. If possible, place tarps, covers over filters, shelters to protect them from dust and sand accumulation.
2. Ensure all electrical connections, ducts, and hoses are tight and properly installed.
3. Before operating any system or item identified in the following paragraphs, read the appropriate TMs pertaining to that equipment.
4. Cover power cords with expendable liquid-proof tarps to protect them from liquid agent contamination.

Approved for public release; distribution is unlimited.

Distribution: U.S. Army Training Support Center.

May 2005
