

# Corps National Camping Facilities

Where can you find an Olympic whitewater training center, view dinosaur fossils, catch a glimpse of the endangered golden-cheeked warbler, see an endless parade of ocean-going vessels and tugs, watch salmon making their annual runs up fish ladders...

Table with columns for state, facility name, phone number, and a grid of amenity indicators. States include ALABAMA, ALASKA, ARKANSAS, CALIFORNIA, CONNECTICUT, FLORIDA, GEORGIA, IDAHO, ILLINOIS, IOWA, KANSAS, KENTUCKY, LOUISIANA, MASSACHUSETTS, MINNESOTA, MARYLAND, MISSISSIPPI, MISSOURI, MONTANA, NEBRASKA, NORTH CAROLINA, NORTH DAKOTA, OHIO, OKLAHOMA, OREGON, PENNSYLVANIA, SOUTH CAROLINA, SOUTH DAKOTA, TENNESSEE, TEXAS, VERMONT, VIRGINIA, WASHINGTON, WEST VIRGINIA, and WISCONSIN.

Continuation of the camping facilities table from the second column to the right, including details for facilities in Montana, Nebraska, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, Washington, West Virginia, and Wisconsin.

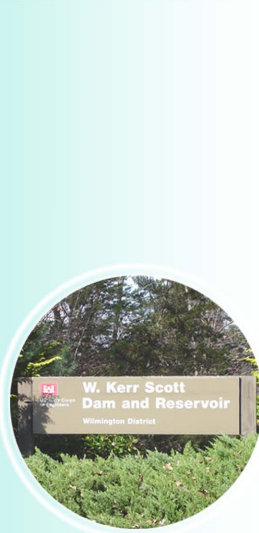

Corps Recreation Today
• 456 lakes in 43 states hosting 33% of all freshwater lake fishing
• 56,000 miles of shoreline
• 4,000 recreation sites with 80% within 50 miles of a metropolitan area

Rules and Regulations
We want to ensure that your visit is always safe and enjoyable.
Safety in the use of our facilities is your responsibility. We encourage you to observe all safety rules and use common sense while visiting.

Caring for Our Lands and Waters
Corps recreation areas belong to you and all Americans. You can help care for your public lands and waters in many ways. Observe rules designed for your safety and for the protection of the park and its natural resources.

The four major causes of drownings are:
• Not wearing a life jacket;
• Abuse of alcohol;
• Lack of sufficient swimming skills;
• Hypothermia.

For over 200 years the Corps has served the nation with programs such as waterway navigation, floodwater control, disaster assistance, hydroelectric power generation, water supply, environmental restoration, and outdoor recreation.

The U.S. Army Corps of Engineers is the steward of the lands and waters at Corps water resources projects. Its Natural Resource Management Mission is to manage and conserve those natural resources, consistent with ecosystem management principles, while providing quality public outdoor recreation experiences to serve the needs of present and future generations.

The Corps integrates the management of diverse natural resource components such as fish, wildlife, forests, wetlands, grasslands, soil, air, and water with the provision of public recreation opportunities. The Corps conserves natural resources and provides public recreation opportunities that contribute to the quality of American life.

Reserve Your Place Under the Stars logo, US Army Corps of Engineers logo, and 'Corps Lakeside Camping in the United States' logo.

- Learning More
To learn more about the U.S. Army Corps of Engineers - including detailed facility information, volunteering as an environmental steward, or visiting a Corps lake or facility - explore the following sources of information:
